A screenshot of the AIRCO website's registration page. The page has a dark blue header with the AIRCO logo on the left and 'Login Sign Up' on the right. The main content area has a background image of a lake and mountains. The title 'Register' is centered, followed by 'New here?' and the text 'Signing up is easy. It only takes a few steps'. There are four input fields: an email field containing 'userexample@gmail.com', a username field containing 'userexample', and two password fields, both containing six dots. Below the password fields is a checkbox labeled 'I agree to all Terms & Conditions'. A blue 'Submit' button is at the bottom of the form. At the very bottom, there is a link that says 'Already have an account? Login'.

Dashboard page – User can see red danger alert if an AQI value drops to a danger level (for showcase purpose)

Test Category ID	2 – Index presentation
-------------------------	------------------------

Test Case ID	6
Test Case Summary	User can see red danger alert if an AQI value drops to a danger level (for showcase purpose)
Related User Story	As a user, I want to see a notification about the current indoor AQI value so that I can have a brief idea of the current air quality conditions and measures to be taken whenever the condition is not good
Prerequisites	<ol style="list-style-type: none"> 1. Register an account 2. Login to your account 3. Choose your location
Test Procedure	<ol style="list-style-type: none"> 1. Press on select toolbar 2. Click on first option 3. Press Search button
Test Data	<p>Option: 25758 (RMIT Building 12, Floor 9)</p> <p>Dummy data is input to showcase what is being displayed under extreme conditions</p>
Expected Result	User can see a red circle and a red danger alert for awair score
Actual Result	 <p>The screenshot shows the AIRCO app interface. At the top, there's a header with the AIRCO logo and a 'Log Out' button. Below the header is a 'Choose Device ID' section with a search bar and a 'Search' button. The main content area displays data for 'Building 10, Floor 9' as of 'Sat May 28 2022, 3:30:05 AM'. A large red circle with the number '30' indicates the 'Awair Score', which is labeled as 'Bad'. Below this, a list of air quality metrics is shown: Temperature (°C) at 18.8, Humidity (%) at 55.6, CO₂ (ppm) at 453, VOCs (ppb) at 220, and PM2.5 (µg/m³) at 3. To the right of the metrics, there are two alert boxes. The top one is red and says 'Danger: The air quality in the room is bad. Please check the sensor data and take consecutive measures. Leave the room immediately.' The bottom one is yellow and says 'Warning: The humidity in the room is high. Please take any measures below and evacuate immediately if you are not feeling well.' followed by two bullet points: 'Turn on dehumidifier or ventilation fans' and 'Turn on the air conditioner and set the temperature to 18(°C)'.</p>
